

# International Roaming Rates

Moblox makes roaming rates easy. Each country is allocated to zone, with a pricing structure for each zone shown in the table. Find your country in the zones in the table, then use the zone number to find the prices applicable to your roaming country.

## Before you go

Make sure your phone is setup to work abroad. And ensure that you have turned roaming on in your online MyMobile account (this is turned on as a default for EU roaming).

## Check your Spend Cap

We cover roaming in our European Zone as part of our Plans. So your data (subject to a Roaming Limit), minutes and text allowances will work in our European Zone, just like they do at home. However, when roaming outside the EU, you will be charged our roaming zone rates. You will receive a warning SMS when you have used 80% of a 4MB data allowance. At 100%, you will receive a SMS to let you know that we have suspended access to mobile data to protect you from high charges. To reactivate your services, you will need to reply with "OK DATA".
